SUMMARY

Passionate Computer Science professional specializing in Web Development and Design, I create responsive, user-friendly web solutions. I'm seeking a forward-thinking organization to leverage my front-end and back-end expertise and drive impactful digital innovation.

PROFESSIONAL EXPERIENCE

CALCS │ IT and Software │ Intern   **Oct 2023 - Mar 2024**

- Key Skills: Frontend Web Developer │ Web Designer │ Full Stack Web Development Intern (Web Design Focus)
- During my internship, I was part of a full stack web development team, primarily concentrating on designing and creating user-friendly, responsive websites. I utilized modern layouts with HTML and CSS, ensuring that the front-end design complemented the overall project functionality. I collaborated with developers to seamlessly integrate design with backend systems, gained practical experience with tools like Bootstrap and fundamental UI frameworks, and contributed to enhancing the overall user experience of web applications.

EDUCATION

M.C.A. - FS Web Developer - PIET   **2024-2026**
PARUL UNIVERSITY

- Specialization in Full Stack Web Development.

B.C.A. - FS Web Developer - PICA   **2021-2024**
PARUL UNIVERSITY

- Specialization in Full Stack Web Development.

WORK EXPERIENCE

Sanitization Management System   **October 2023 – March 2024**

- **Key Skills:** HTML, CSS, JS, PHP, MySQL
- Comprehensive Sanitization Management: This digital platform is designed to monitor, schedule, and oversee sanitization activities in various public and private spaces.
- Ensures Protocol Adherence & Accountability: It allows administrators to assign tasks, track cleaning progress, manage personnel, and maintain records, thereby promoting consistent hygiene and accountability.
- Automates Scheduling & Reporting: Operations are streamlined through automated scheduling, and it generates detailed reports for compliance, audits, and enhanced cleanliness standards.
- Promotes Safe & Healthy Environments: Ultimately, it improves hygiene protocols to create safer and healthier settings in facilities such as schools, offices, hospitals, and factories.

- **Key Skills:** HTML, CSS, JavaScript, PHP, MySQL
- Streamlining Hotel Operations: This web application effectively manages essential hotel functions, including room bookings, customer check-ins/outs, and billing processes.
- Comprehensive Room & Customer Management: Staff can effortlessly add and oversee room information, monitor real-time availability, and maintain detailed records of customers.
- Enhancing Efficiency & Service: The system is designed to automate daily operations, significantly boosting the overall service quality and organizational workflow of the hotel.

ADDITIONAL INFORMATION

- **Technical Skills:** Front-end (HTML, CSS, JAVASCRIPT), React, PHP, MySQL, Figma, Canva, etc.
- **Languages:** English, Hindi, Gujarati
- **Certifications:** HTML, PYTHON, JAVA, PHP
- **Awards/Activities:** Received the "Full Stack Web development" Award for Project making

---

EXTRA CURRICULAR ACTIVITIES

- Volunteered for organizing tech workshops and seminars
- Blogging
- Attended webinars and online courses to enhance technical skills
- Involved in college cultural and sports events
